FRANKFORT, Ky., Sept. 6.—Gov. Bradley and his corps of surgeons and nurses returned Sunday with Kentucky hospital train from Chattanooga. The governor, after a personal inspection of Camp Thomas, does not credit the many stories of neglect of soldiers at Camp Thomas by their officers, and says the situation there is more favorable than he expected to find it. Fifty-three sick soldiers from the 2d Kentucky regiment, were brought back on the hospital train. The surgeons in charge of the train were very complimentary in talks concerning Starnes and Leiter hospitals, and say they think the prevalence of typhoid in the camp is due to a lack of sewerage and failure to remove garbage from camp grounds.

Window Curtains. These Change with the Times as Do Styles in Dress—Some Present-ent Fancies.

The fashion of window dressing changes with the years and the ideas of drapery that prevail. A few years ago it was considered very desirable to have inside blinds. To-day these inside blinds have given place in many country houses to the older fashion of the graceful Venetian shutters, which take the place of the shutter and the holland shade formerly considered necessary at every properly arranged window. Where the expense is not considered cool-looking awnings are placed at all the sunny windows. It is not considered necessary for the sake of appearance to put up awnings where the shade of trees renders them superfluous, but only where they are needed. The inside curtains of a summer room are quite generally limited to the lower sash, where transparent curtains of some material are pulled over the window. Curtains that hang over the window and exclude the air when the window is open are not used in summer sleeping-rooms or anywhere in summer, unless there is some arrangement by which they can be looped back to let in the air. The wire screen is used in kitchens and where nothing else will take its place, but is not desirable in less utilitarian apartments. These screens successfully keep out flies and other insects, but shut out an immense amount of air at night, when the outside air is colder than the inside and it is desirable to admit it. Windows and doors should be shut from nine or ten o'clock in the morning until after five o'clock in order to shut out the heated air. During the night as much air as possible should be admitted indoors, and no draperies should interfere with it. N. Y. Tribune.

## Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are transparent to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

H. T. Stoney, 2701 Lucas Ave., St. Louis, Mo.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific.

S. S. S. For the Blood is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no poison, mercury or other mineral.

Books mailed free by Swift Specific Company, Atlanta, Georgia.

## FOR ALL WOMEN

None of the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

## Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Toledo, Ohio, says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."
